

Wandering

GPS & TECHNOLOGY OPTIONS TO REDUCE THE RISK OF WANDERING

Personal Emergency Response Systems & GPS Locators

Wanderers who get lost can be difficult to find because they often behave unpredictably. They may not call for help or respond to searcher's calls. Consider products to help with location and identification.

Devices vary from simple tracking to personal emergency response with one-button assistance, geo-fencing, two-way voice communication* and fall detection.

Product	Website	Pricing
