IRVINE...More than \$150,000 was raised for Alzheimer's Orange County (AlzOC) at the 8th Annual Golf Fore Alzheimer's Tournament, held May 13 at Arroyo Trabuco Golf Club in Mission Viejo.

2022 marks the 40th year that AlzOC has providing care, collaboration and compassion for Orange County residents challenged by Alzheimer's and other memory disorders.

This year's tournament honoree was Robin Richter, a long-time entrepreneur, avid golfer, and president of Wearable Imaging, Inc., a promotional products company based in Orange County. She currently serves on the AlzOC Board. Chairing the event were Frank Carfioli and Mike Lancaster.

"On behalf of Orange County residents and caregivers contending with Alzheimer's and dementia, we thank all of our sponsors, golfers and guests for supporting our services and programs they rely upon," said AlzOC CEO and President Jim McAleer. All of the funds raised stay right here in Orange County. For more information, visit www.alzoc.org Photo:AlzOC
